

Serving the community by providing admissions to stranded students

During first wave of COVID-19 pandemic, thousands of students of Mizoram, who were pursuing their education in different parts of the country, had come back home for safety in the mid of their semesters, and had a very dim chance of going back to their respective institutions to resume their studies. Under these circumstances, the university, with due approval of authorities, stepped in to help the stranded students by offering them admission in its ongoing courses, through Lateral Entry Mode by following the established procedures, so as to give them a chance to complete their studies without forfeiting the credits they had acquired in their previous institutions.
